

Highly Pathogenic Avian Influenza in Grey County

September 19, 2022

This is an important communication regarding biosecurity and quarantine provisions on your poultry farm.

The Feather Board Command Centre (FBCC) was recently made aware of symptoms consistent with highly pathogenic avian influenza (HPAI) in your area.

FBCC has been working with the Canadian Food Inspection Agency (CFIA) and **we can now confirm that HPAI has been identified within an approximate 10km radius from your farm.** [CLICK HERE](#) to access the 10km buffered biosecurity advisory map. CFIA may be contacting you if they haven't already done so and will provide more details about what is expected.

CFIA Primary Control Zones

CFIA will establish a Primary Control Zone (PCZ), in the area where the disease has been identified. Use the following link to access CFIA's maps, which will be updated:

[Map: Avian Influenza Control Zones – Ontario](#)

Please implement heightened biosecurity immediately!

If your birds show any signs of illness, call your veterinarian immediately. Also contact CFIA's local District Office during business hours, or by calling 1-877-814-2342 after hours. It is also recommended that you contact the 24-hour Feather Board Command Centre (FBCC) support line, 1-877-SOS-BYRD.

More information will be provided on the Feather Board Command Centre's [website](#) in coming hours and days.

Daily HPAI ZOOM Update Series at 12pm Noon:

FBCC invites you to participate in the Daily HPAI Update Series, designed for farmers who are in the zone(s) and industry personnel that conduct business within/through the zone(s) to receive the latest information from CFIA and FBCC.

Daily HPAI Update Series Zoom Login Details*:

W: <https://us06web.zoom.us/j/2665883981>

P: 1-855-703-8985

Meeting ID: 266 588 3981

**The Zoom login details will not change day by day. These login details will get you onto the meetings Monday – Friday, starting at 12:00 noon, and until further notice.*
