

H5 Avian Influenza in the Municipality of North Perth

December 16, 2025

This is an important communication regarding biosecurity and quarantine provisions on your poultry farm.

The Feather Board Command Centre (FBCC) was made aware of symptoms consistent with H5 avian influenza (HPAI) in a poultry flock in the Municipality of North Perth. [CLICK HERE](#) to access the 10 km buffered FBCC biosecurity advisory map

CFIA Primary Control Zones

CFIA will establish a new Primary Control Zone (PCZ) in the area where the disease has been identified. Use the following link to access CFIA's maps, which will be updated: [Avian Influenza Control Zones](#).

Please ensure you implement heightened biosecurity immediately! Biosecurity protocols can be accessed on the [FBCC website](#).

CFIA has implemented [movement control permissions](#). Please access this information to determine which type of permit you may require. If you are required to submit a movement permission request, please do so a minimum of seven (7) days in advance of the planned movement. Questions can be directed to cfia.ontmovementlicandpermits-deplacementlicenceetpermis.acia@inspection.gc.ca

Small Flock owners can also visit Small Flock Ontario for relevant resources and support [HERE](#).

If your birds show any signs of illness, call your veterinarian immediately and notify your board.

Visit the Feather Board Command Centre's website at www.fbcc.ca for more information.
