

## Infectious Laryngotracheitis (ILT) Biosecurity Advisory Township of Huron-Kinloss - RESCINDED

**March 13, 2025**

The Feather Board Command Centre (FBCC) is rescinding the ILT Biosecurity Advisory for the Township of Huron-Kinloss issued March 11, 2025. FBCC has been made aware that the commercial flock associated with this biosecurity area was identified to us in error. For this reason, please note that [the associated biosecurity advisory area](#) has been rescinded.

All poultry farmers, small flock growers, and poultry industry personnel throughout the province should rigorously adhere to [Heightened Biosecurity Practices \(orange cards\)](#) as Highly Pathogenic Avian Influenza (HPAI) recovery efforts continue.

**If you suspect any signs of health concerns in your flock, please contact your veterinarian and board immediately.**

Visit the [FBCC website](#) for detailed information and to subscribe to FBCC Disease Alerts.
